

## Read this message before the purchase

### 1. As for the painting (! Important)

The painting in body color or clear coat is necessary for this product by all means.

At the part [A] shown in the figure below, wrinkles of the carbon or air bubbles may be in the surface, and the part [A] is assumed to be painted with the body color.

When the carbon weave would be exposed at the part [B], UV protection clear coating is recommended.

### 2. Required to prepare some parts

PDC holder kit of front bumper : #51118066228

Towing hook cover : #51118063105

PDC holder kit of rear bumper : #51128066308

The part number may change suddenly.

### 3. Headlight washer caps [C].

Because the caps are not included in 3DDesign bumper, there is a need to relocate the caps from the OEM bumper, or to purchase newly. #51118061575/6

### 4. The mesh made of aluminum

The mesh [D] is made of aluminum for light weight and keeping of cooling performance. Please understand beforehand that it may have dent by stone chip damage.
